Skill Java Programming — Assignment 4

11. Create an object called myObj and print the value of X.

Java file: MyObjDemo.java

```
class MyClass {
    int x = 10;
}

public class MyObjDemo {
    public static void main(String[] args) {
        MyClass myObj = new MyClass();
        System.out.println("Value of X = " + myObj.x);
    }
}
```
