Skill Java Programming — Assignment 4

7. Display employee details like employee ID, name, and salary.

Java file: EmployeeDetails.java

```
import java.util.Scanner;

public class EmployeeDetails {
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);

        System.out.print("Enter employee ID: ");
        int empId = sc.nextInt();
        sc.nextLine(); // Consume the newline

        System.out.print("Enter employee name: ");
        String name = sc.nextLine();

        System.out.print("Enter salary: ");
        double salary = sc.nextDouble();

        System.out.println("\n--- Employee Details ---");
        System.out.println("Employee ID: " + empId);
        System.out.println("Name: " + name);
        System.out.printf("Salary: %.2f%n", salary);

        sc.close();
    }
}
```
